

WILL YOU BE A VOICE FOR THE VOICELESS?

On June 24th the Supreme Court overturned Roe vs Wade with their Dobbs decision. This decision finally put to rest one of the most egregious and devastating court decisions in our country’s history. As a result, the Supreme Court returned the power back to the States to let the American people protect the unborn through their elected representatives.

Heart begins beating 18-25 days after conception.

Lungs are formed on day 26 after conception.

Brain waves have been recorded at 40 days after conception.

On day 42, the baby develops nerve connections.

At 8 week, the baby is well-proportioned and every organ is present.

At 9 weeks, if prodded, the baby’s eyelids and hands close.

If you’re pronounced dead when your heart stops beating...

...why aren’t you pronounced alive when your heart starts beating?

“Protection of Life through Education and Action. These people, your friends, neighbors and family, lent their name to give ‘voice to the voiceless”
